The cultures of Africa are as varied as its landscape. [Discover them.](#)

A photograph of an aloe vera plant in the foreground, with several tall, yellow, cone-shaped flower spikes rising from its center. The background shows a hazy, mountainous landscape under a clear blue sky. The text "Africa is Changing." is overlaid in white, serif font across the middle of the image.

Africa is Changing.

Find out more about Africa's Development.

The African Union is a political partnership of the countries of Africa to create a better life for Africans.
